ABOUT ME

Frontend Developer | Web Development
React, JavaScript, HTML, and CSS, with additional expertise in backend technologies like Node.js and MongoDB. Successfully developed a Spotify clone as a university project, showcasing full-stack development skills and a focus on seamless user experiences. Committed to continuous learning, problem-solving, and delivering high-quality solutions in web development.

15/01/2025
Spotify Clone - Web Application

03/08/2024
15/11/2024
Personal Portfolio Website - HTML & CSS

Spotify clone:

User Authentication: Users can create accounts, log in, and manage their profiles securely. **Music Search:** The app allows users to search for songs, albums, and artists. **Backend**: A Node.js and Express backend powers the application, handling user authentication, music data, and playlists

Portfolio:

Responsive Design: Optimized for both desktop and mobile devices. Project Showcase: Displays my web development projects with descriptions and links. Simple Navigation: navigation for accessing different of the portfolio.
